

January 14, 1972

SENATE INTERNAL SECURITY SUBCOMMITTEE
3224 NEW SENATE OFFICE BUILDING
WASHINGTON, D. C. 20510

The Senate Internal Security Subcommittee announces the publication of "World Communism, 1964-69, A Selected Bibliography." This bibliography, prepared by the Congressional Research Service of the Library of Congress, lists nearly 6,000 significant publications in the field of international Communism which were published or became available during the years 1964 through 1969.

The bibliography is broadly gauged and embraces the multiple aspects of international Communism as a political movement and as an international system. Therefore, special emphasis has been placed on international relations, in addition to internal developments within each Communist state. The entries are arranged in three major categories, namely, books and pamphlets, periodicals and newspapers, and United States Government publications.

A bibliography is, of course, a reference list of publications available in a certain field. As such, its appeal and usefulness are limited, for the most part, to serious scholars and writers. To make sure that "World Communism, 1964-69" goes only to those who want a copy and to best utilize the subcommittee's limited supply of this 450-page work, no general distribution will be made.

This notice is to inform you that a limited number of copies are now available by request only from the Internal Security Subcommittee. One copy a person.

The publication also may be obtained from the Government Printing Office at a charge of \$1.75 a copy. Address orders to Superintendent of Documents, Government Printing Office, Washington, D. C. 20402.
